HCPS Families and Staff:

Today, Governor Youngkin signed legislation requiring school divisions to allow parent choice for student mask use in schools.

In compliance with the new state law, **HCPS will adjust student mask practices beginning Thursday, February 17.** We strongly recommend universal mask use indoors by students during times of high community transmission; however, we understand that some parents/guardians will opt their children out. As a reminder, **federal law requires the continued use of face coverings on school buses**, and employees must continue to wear masks at school as required by the Department of Labor and Industry. Further, HCPS requires adult visitors and guests to wear face masks indoors.

Our goal is to maintain safe and respectful classrooms where all students are engaged in their learning without discord over family mask choices. To support this, we ask you to take a few minutes to speak with your children about the fact that some students in their class may be wearing a mask while others are not. Let them know that school counselors and administrators are available to help students who may experience anxiety or stress due to the change.

All families should continue daily health checks using the [COVID-19 Health Screening for Students](#). Anyone who is ill should stay home until they are feeling better. If your child has COVID or was recently exposed to coronavirus, please report this information to your child's school as soon as possible. Students returning from isolation, quarantine, or participating in

Te t to Stay need to wear a ma k through Day 10, or parent may choo e to keep them home until Day 11.

We appreciate your partner hip a HCPS navigate the ever changing land cape of in person learning during the pandemic.

Sincerely,

Henrico County Public Schools
